reaching one out of every two students in North America.**

**Over  
13,000**  
schools and  
districts

**70**  
countries

**Save time and productivity with real-time data visibility**

# Support student and parent engagement

The background of the slide is a blue-tinted photograph of a classroom. In the center, a laptop is open on a desk. To the right, a student is leaning over a desk, writing in a notebook. Other students are visible in the background, some holding papers. The overall scene is a busy, collaborative learning environment.

**Drive student success**
